Kimberley
Distr., W.A.

Kimberley's Trip

Pt. Augusta. Sth Australia 26·3·58

17537 Bookaloo.

17548 Stop Red sand plain with Acacia Phaulacridium sp. 10, Moraba sp., Bepleasia sp., sowdenii on parkland density with Kochia ? Kapaeris sp.
sedifolia, georgei and Atriplex vesicaria scattered throughout. Odd Rhagodia sp present Moraba ♂ [CH 236-237] on Kochia sedifolia.

17557 Woocalla

17569 Open gibber downs with sparse Chortoicetes terminifera, Scaphantus
cover of Atriplex vesicaria, Bassia sp. quadrilobus, Genus nov. 6 sp. 2, Cuparessa sp. (j.)
Traqus australis and Euphorbia drummondi.
In shallow crab holes, Astreola pictinata.

17623 camped.

29·3·58

17623 depart.

17631 Stop. Sand covered gypsum hills Chortoicetes terminifera, Peycnostictus
overlooking Lake Hart bearing H. brachystoc. seriatus, Urnisa guttulosa
Holcofolium and Arameesa. Ground cover sparse with Enneapogon sp dominant.
Scattered Azoon sp. and Rhen. auricomum.
Nymphs of Urnisa, Urnisella. Plants green.

17651 Worramunna

17656 Stop. Red-purple lateritic gravelly hill as arise between sandy flats Practically treeless. Bearing scatter plants of Kochia sedifolia, A. vesicaria, Chenop. sp (auricomum) and odd Rhagodia spinescens. Pasture limited to Dactyloenium radulans, Bochavia diffusa, Azoona sp. seedlings.
Buforania sp.-(j.); Cuparessa sp.-(j.)

17672 Coondambo.

17674 Stoney downs with patches of crab-holes. Stoney area bearing scatter Bassia sp. odd A. spongiosa & K. brachyptera. Crab-holes SM. with Brachycombe sp. Diplachne fusca Sida sp and Panicum sp. Area green from recent rains.
Cuparessa sp.-(j.)

17706 Kingoonya

17710 Stop. Kochia sedifolia assoc. with scattered A. aneura & sowdenii, odd E. latrobei. Some Enneapogan & Dact. on small patches. Moraba (not caught) seen on the sedifolia.
Genus nov.-8 sp.-1, Bepleurum sp., Chortoicetes terminifera, Genus nov.-95 ochracea, Genus nov.-6 sp.-2, Genus nov.-4 sp.-1, Dualetta maculata-(j.)

17717 Stop. Stoney slope of small hill A. vesicaria dominant with miscellaneous
Tapaya sp., Collifera sp., Genus nov.-95 ochracea,

annuals present. Enneapogon nigrescens, Chortoicetes terminifera, Tapeina caniperda flavescens, Traegus australis, Eragrostis dielsii and japonica.

17735 Stop. Gibber & pebbly downs. A. vesicaria and stunted H. sedifolia dominant. Some Chortoicetes terminifera, Cuparessa sp. (j.), A. spongiosa and Psoralia sp in odd drainage Genus nov. 4 sp. basins. Practically no ground cover except for the shrubs.

17765 Mt. Eba.

17775 Stop. Purple lateritic gravel plain bearing A. aneura and Eremophila Quadrella maculata (j.), Cuparessa sp. (j.); Genus nov. 4 sp. sp. Mosaic patchwork of gravel and non-gravel areas. Non stone area bearing Bassia sp. Aristida arenaria, Atriplex sp.

17776 Camped. Scarabs to light

30. 3. 58.

17788 The Twins H.S

17836 Ingomar H.S.

17842 Stop. Red sand hills bearing A. brachystachya, Acacia with Euc Callitexa sp., Unisa guttulosa, coolibah in edge of shallow clay pan, Psychotrichus sericeus, Chortoicetes terminifera, morabine sp.

A vesicaria scattered on lower portions of sand ridge. Arist. arenaria, Bochaeria diffusa Trichinium sp and Sida sp and suffering ground cover extremely sparse.

17867 brook in stone plain. Pebbly area with mosaic of bare stone - shrub complex. A. vesicaria K. sedifolia with Astreb. pectinata, Eragrostis dielsii in crab holes. Capparis sp., Bepleesia sp., Chortoicetes terminifera, Gonocarpus sp., Troggatina australis, Capparessa sp., nyrabine sp.

17886 Coober Pedy

17887 Stop Stoney flats and gullies leading down to plains. A. vesicaria and K. sedifolia dominant in patches mainly in shallow gullies or drainage holes. Salsola Bepleesia sp., Stropis macrosa, Buforonia sp., Eriplantus quadrilobus, Atriplex sp., Caparis sp., Capparessa sp., Abutilon sp. Dactyloteniun radulans sp., Teshudinellia sp., Genus nov. 5 sp. 4, Eragrostis sp. Ranulella from stone 3. Ranulella sp., nyrabine sp.

17914 Mabel Ck. H.S.

17924 Stop Gibber plain. Open stoney area dissected with small run off areas bearing A. tetragonophylla. Some Eremophila sp. on stone. Some crab holes with Astrebla pectinata and Eragrostis sp. Scattered Atriplex vesicaria bushes among the later stone area. Caparis sp., Buforonia sp., Eriplantus quadrilobus, Chortoicetes terminifera, Trastracris gutulosa, nyrabine sp.

17933 Stop Acrida conica, Boggattina australis, Creek area in gibber plain. Pycnostictus seriatus, Chortoicetes terminifera, Lined with A. aneura and odd Euc sp. Ephantus quadrilobus, Capparis sp. Themida dominant on bank with Dactyloteneum, Aristida arenaria + miscellaneous annuals

17960 Camped At light
Urnisiella sp.

31·3·58

17960 Left camp.

17986 Mt. Willoughby H.S.

18032 Welbourne Hill H.S.

Bare desolate gibber + stony country.

18065 Marla Bore.

18107 Stony hills covered on crest Eragrostis xerophila, Dasypogon hookeriana, only with A. aneura. Stone covered Calotis sp., Urnisia guttulosa, Tephrosia sp., sides with Atriplex vesicaria and Apophyllis sp., Ephantus quadrilobus; odd Eremophila bush. Ground cover Pycnostictus seriatus, morrbine sp. mil. Ironstone + quartz stones.

18110 Stop Creek out of stony hills. A. aneura dominant Tree species present. Themida codominant with Dactyloteneum sp together with Bocharnia diffusa and Caltrop.

18123 Agnes River

18137 De Rose Hill H.S.
18152 Sundown H.S.
18153 Camped. At Light.

1.4.58

18153 Left camp.
18170 SA-NT Border
18174 Mt. Cavenagh H.S.
18184 Kulgera H.S.
18187 Granite outcrop in a gramma
Genus nov. 56 sp., Strophis maculosa,
sand plain. Morton Bay fig? Dodonea sp
Collitya sp., Psychophictus peridatus, Ceporaxala
A. Kempiana. Abutilon sp. a Eremaeus
sp., Macrotona sp. 4, Zephanteus quadrilobus,
tussocks in rock crevices. Sand plain
Genus nov. 6 sp. 2, Genus nov. 95 ochraca, Apothopis sp.
bearing A. aneura.

18230 Erldunda H S
18253 Red spinifex covered sand-
Rasarpia sp. 5, Genus nov. 95 sp., Genus
hills with A. Estrophulata Cas sp.
nov. 64 sp., Unisa guttulosa, Warramunga sp.,
Cassia eremophila, Acacia sp. Ground
Macrotona sp. 14, M. sp. 18.
cover Spinifex Triodia basidowii. Annuals
absent.

18270 Lower slope of rocky range
Buforania sp., Beplessis sp.,
bearing stunted A. aneura. Rocky
Deseptoria sp., Unisa guttulosa, Owaletta
dedifolia Crusher permanent off rock

maculata, Pycnosticus seriatus, Collitera
area. On sandy base Salsola dominant,
variegata, Genus nov. 6 sp. 2, Genus nov. 5 sp. 4,
with Enneapogon nigrescens.
Tapesta sp., Genus nov. 95
ochracea

18280 Henbury H.S.

18293 Stop Spinifex sand plain.
Macrotona sp. 14, Papazylum sp., Genus
A. aneura with odd Euc. gamophylla
nov. 95 sp., Genus nov. 95 ochracea, Genus nov. 64 sp. 1,
Triodia basedown dominant ground
Micrcola sp. 4, Macrotona sp. 18, Eustrachis guttulosa,
cover.
Micrcola sp. 5.

18300 Renner Rock H.S. Hugh River

18302 Stop Stoney James Ra.
Buforania sp., Macrozelota cervina, Cakospa
Lateritic outcrop. A. Kempiana Gem.
sp., Bepleroia sp., Stropis maculosa, Collitera
Latrobei on sides together with stunted
variegata, Desertaria sp., morabine sp., Perbellia
A. aneura Eragrostis eriopoda in rock
sp., Genus nov. 95 ochracea, Micrcola sp. 8, Ulmisa
crevices and odd Datura. Sandy area
guttulosa, Macrotona sp. 18,
at base. Eragrostis eriopoda dominant.

18313 Camped. at light

2.4.58

18313 departed.
Desertaria longimucosa, Buforania sp., Stropis
18328 Waterhouse Ra Similar in
maculosa, Chortoicetes terminifera, Peakesia sp.,
structure & vegetation as 18302
Morabe in debris but suspected of being
Ulmisa guttulosa, Cuprasaula sp., Genus nov. 95
on Eragrostis eriopoda.
ochracea, Pycnosticus
seriatus, Collitera
variegata, Macrozelota
cervina, Genus nov.
56 callopus

18360 Alice Springs

18385 Alice Springs depart.

18390 Stop Granite outcrop of the Macdonnells. A. kempiana Cassia Petalostylis sp., Macrozelota crinita, Genus nov. 95 eremophila and A. aneura. Themeda ochracea, morabine spp. (2) avenacea, Salsola Kali and Enneapogon sp formed a sparse ground cover.

18405 Camped. Mulga scrub.

3.4.58

morabine sp., Macrolopholia sp., Pogonostictus seriatus

18405 depart

18410 Stop A. aneura Main Mulga Genus nov. 95 ochracea, Desertaria longirugosa, dominant with odd Cassia sp and Petalostylis sp., Macrotona scariosmis, Bernius Eremophila sp bushes. Pasture scattered buntamurra, Pespulia sp. 1, Stropis maculosa, and sparse composed of Enneapogon troggatina australis, Goniocoidea sp., Aristacia Dactyloctenium radulans and Eragrostis gutturosa japonicas. Dry conditions throughout.

18432 Ph 13

18442 A. aneura and Triodia pungens Macrotona sp. 8, Stropis sp. 1, Dualetta maculata, Some A. kempiana. Little or not Capraxa sp. 2, Desertaria longirugosa, Waramunga sp. ground cover except for the Triodia.

18468 Alderson

18474 Granite range crossing the road Macrotona sp. 10, Desertaria sp. bearing Calitris sp. Spinytaped acacia and

spinifex. Annuals etc completed dry & disintergated. Cassia artesmoides at base of outcrop on spinifex plain. Spinifex - Triodia pungens.

18504 TI-Tree

18509 Stop Spinifex sand plain. Triodia pungens dominant w/ Grevillea sp. Euc terminalis & odd Euc papuana. Sea Hereal Eremophila sp & Acacia shrubs present.

18534 Stop Alstonia sp. dominant on sandy loam country with Eremophila sp. One a purple-flowered prostrate bush to 1' high & 2' across. Odd Euc terminalis present. Little herbage cover except for dry tussocks of Eragrostis eriopoda.

18543 Stop. Spinifex sand plain with odd Euc terminalis present. Some Cassia artesarmoides and Cassia eremophila. Little or no other herbage. Some Aristida tussocks present. Dodonea shrubs as occas.

18560 = 18543

18576 Barrow Creek

Monistria sp.; Genus nov. 95 ochracea, Peakesia sp.
Morabine sp.; Conicala sp., Peakesia sp., Acacia sp. 15, M. sp. 8, M. sp. 18, Genus nov. 95 ochracea, Gen. nov. 95 sp. 1, Gen. nov. 95 sp. 4, Micrcola badia, M. sp. 8, Desertaria longirugosa, Paraglum sp., Peakesia sp.
Triodia pungens dominant w/ Grevillea sp. sp., Desertaria longirugosa, Micrcola sp. 4, Genus nov. 95 sp. 1

1859½ Camped. ~~At light~~?

Pl. 13. 14. 15.

4.½.58.

1859½ depart

18617 Spinifex Bore Spinifex sand plain bearing scattered Grevillia sp A. kempeana, Euc Terminalis and Cassia artemisioides Spinifex Triodia basedowii. Some clumps of Eragrostis eriopoda, Aristida sp and Abutilon sp.

Acrida conica, morabina sp., Wapanunga sp., Pycnostictus seriatus, Bermius lumptamarra, Macrotona sp. 11, Genus nov. 95 sp. 3, Urnisella sp., Callitera sp. 1

18640 Stop Shrub association with A. kempeana dominant together with tree (appearance of citrus) Cassia eremophila and artesimoides. Odd stunted Euc. Terminalis present and scattered Tussock of Triodia.

Macrotona sp. 8, Caprarca sp. 2

18643 Wauchope.

18647 Stop. Stoney hill at base of which is Euc-lined creek. Spinifex on hill with stunted Euc papuana and small Cassia sp. Creek banks Triodia lined with Acacias, Alstonia sp, with an under storey of Triodia sp.

Macrotona sp. 6, Peakesia sp., Caloptilla rubripes, Warramunga sp.

18680 Stop. Spinifex sand plain bearing Genus nov. 95 sp. 2, Genus nov. 12 sp. 2, Grevillea sp. Euc. hafuana with Aristida Triodia sp. 8, Psycnostichis seriatus, = common throughout the Triodia and Acacia minyna interioris, inoralbine sp. Warrangunga Eulalia fulva under the Eucalypts. Some Eragrostis fapanica in better watered situations.

18714 Tennant Creek.

18714 = 18754 Camped 18742 Sth.

5.4.58

18767 Stop Spinifex plain bearing several Warrangunga sp. Psycnostichus seriatus sp. of stunted Euc. (one glaue broad leaf) Flotiaea sp., Macrotona sp. 9, M. sp. 8, Bursaria and miscellaneous shrubs. Petrs cus sp. guttulosa, Riolopus thalassinus, Genus nov. 95 Cassia sp. Eremophila sp. Odd Grevillea sp. 2, Gen. nov. 95 sp. 4, Dezertaria longifolia, Collitera sp. 1 present.

18787 Stop Spinifex covered crowstone Macrotona sp. 6, Perbellia sp., Histiocarida sp., hill bearing stunted Euc. (white stem - Macrozoloba cervina cabbage gum - small mallee form euc.) conditions hot + dry.

18791 Stop Collitera sp. 1, Stropis sp. 1, Macrotona sp. 8, Stoney hills bearing Acacia sp., Triodia quadriloba. Triodia. Stunted scattered Euc sp. Psycnostichus seriatus present.

16816 Banka Banka

Warramunga sp., Perbellia sp., Genus nov. 60 sp., Ephantus quadrilobus, Macrotona sp. 6, M. sp. 11, M. sp. 8, Genus nov. 28 sp., Genus nov. 12 sp. 2, Peakesia sp., Stropis maculosa, Desertaria sp., Buforamia sp.

18818 Stop. Spinifex covered stony rises with stunted Cabbage gums & odd Acacia sp. Several small shrub sp.

18854 Renner Springs

18860 Stop. Stony rises with several Euc sp all stunted 6 to 12 ft. Numerous miscellaneous Acacias & other shrub

Ground cover. spinifex.

18908 Elliott

18911 Camped at night Macrotona sp. 8, Pycnostictus sinatus, Adreppus sp. Eutopistes sp. Ephantus quadrilobus, Genus nov. 12 sp. 2,

6.4.58

18911 depart.

18925 Newcastle Waters Murranji Track

18937 Stop. Open savannah woodland Bearing Bauhinia sp. Bulwaddi Hakea sp. Euc brevifolia & other Euc with miscellaneous Acacia shrubs. Ground sparse consisting of Dry Eragrostis setifolia Tussock, Aristida ramosa. Peakesia straminea, Macrotona sp. 8, Desertaria longirugosa, Genus nov. 62 sp., Corisiella sp., Genus nov. 95 sp. 2, Caloptilla rubripes, Warramunga sp.

18952 No 9. Bore

18953 Treeless Black soil plain bearing Eulalia fulva, Astrebla, Aristida and Isolema Tussock (dry) Few annual Urnapta sp., Aiolopus thalassinus

herbs present (possibly a Euphorbia sp.)
Urmiella sp., Gonidea sp., Eastmarquis
18963 Silty flat bearing Euc. sp
mansicus, Austrachis guttulosa, Acrida conica,
(grey bark to ends of branches similar to Black
Desertaria longirugosa, Macrotoma sp: 8,
box) Eragrostis Tussock & Aristida
Austroiceted tricolor, Troggattina australis
pericheanis, some Mallana clumps; much
bare ground between grass clumps.

18978 Savannah woodland of A shirleyi
Eucs nov. 95 sp. 2, Urmiella sp.,
Euc. dichromophloia, Bulwadale odel Cas.
Xanterriaid sp.
sp. & miscellaneous shrubs. Ground cover
composed of Aristida sp, & Stipa sp with some
dead annual remains

18987 Murranji Water Hole

18992 Heavy soil plain (flood plain)
Austrachis guttulosa, Gonidea sp.,
bearing Swamp gum. Ground cover is
Troggattina australis
Astrebla elymoides and some Flinders
grass

19005 No 11. Bore.

19007 Stop A shirleyi assoc forest
Peakesia spaminea
formation on silty gravelly soil. Odd
shrub as understorey. Occasional clumps
of Stip sp and Eragrostis. Debris of other
annuals present.

19016 Savannah woodland of Euc

Eragrostis muscicus, Cirpilladia
sp. E dichromophloia Blackbutt
E flavocarinata, Xanthorrhoea concolor, Peaksoia
E eu ferruginea. Cover patchy consisting
Stramineal, Stipa nigrovitellina, Genus nov. 13/
of Aristida sp. Stipa sp with some
sp. 2, Macrotona sp. 8, Acrida conica, Calmacris
Eulalia fulva. archaica

19021 No 12 Bore comp'ed

7.4.58

19021 depart.

19033 Stop Stoney hill (round pebbles) Learnia
Macrotona sp. 2?, M. sp. 8, Genus nov. 15 sp. 1,
Acacia shirleyi on the crest, with Pletrachne
Waramunga sp., Genus nov. 58 sp. 6
sp on the side. Several small Acacia's
present as shrubs. On lower area Bauhennia
sp. - odd tree dichromophloia present.
Morabine on Pletrachne.

19036 No 13 Bore

19041 Stoney slopes - plain. Red-purple
Cirpilladia sp., Genus nov. 15 sp. 1, sp. 3,
stone (gibbers) with patches of Astrebla
Eriachnes quadriloles
- plain oles grass. (dry conditions)

19052 Savanah woodland of Three
Australasis guttulosa, Bonnaya sp., Tolgadia
tree sp. (broadleaf glaucus) Ground cover
infirma, Genus nov. 95 ~~ochracea~~, sp. 2, Peaksoia
patchy & composed of Eragrostis sp. Stipa
sp., Morabine sp., Cirpilladia flavocarinata
sp. Themida australis & some Astrebla.

19064 Top Springs

Austrasis guttulosa, Lonicaea sp., Peaksia

19064·7 Edge of small creek. Timber a bloodwood (Eucalyptus terminalis) with Tea tree shrubs along the bank. Ground cover dry consisting of miscellaneous annuals with bunch grass along creek bank. sp., Troggattina australis, Heteropetemis obscurella, Aristida lonica, Cupilladia sp.

19068 Stoney hill bearing stunted Acacia sp with bloodwoods (Eucalyptus terminalis) scattered on plain level Aristida Eriachne sp. and a desert Euphorbia. Condition of pasture green. Genus nov. 66 sp. 2, Zebratula sp., Peaksia sp., Tepillaria pulchra, Genus nov. 15 sp. 1, Genus nov. 95 sp. 2, Austrasis guttulosa, Cupilladia sorolia sp (yellow flowered) Portulaca oleraceus sp.

19075 Stoney plain dissected by small open creek Bloodwoods and another Tree (brown-black fissured bark bearing red-purplish fruits round & nearly size of golf ball. Pasture patchy composed chiefly of Eriachne sp. Two Aristida sp, and Stipa sp. Cupilladia sp., Lonicaea sp., Zebratula sp., Peaksia sp., Genus nov. 66 sp. 2, Genus nov. 15 sp. 1, Genus nov. 95 sp. 2, Morabina sp., Troggattina australis

19086 Purple-red gibber flat with stone a pasture in patchwork mosaic Vegetation dry composed of Chloris sp. & Aristida with Aristida aerapoda in clumps. Euphorbia sp present in patches but dry. Cupilladia sp., Biforania sp., Genus nov. 15 sp. 1, Genus nov. 66 sp. 2, Eriachne quadriloba, Peaksia stramina, Austrasis guttulosa, Zebratula sp., Genus nov. 95 sp. 2

19089 Stoney hill bearing (Euc) smooth white barks and odd trees (golf ball tree)

Lophantus quadrilobus. Genus nov. 66 sp. 1, Genus nov. 66 sp. 2, Terpillaria pulchra,

Pasture predominantly Chloris sp (dry) with Zebrapula sp., Aristida sp. Gomaia sp., Genus nov. odd Stipa sp tufts. Crest of hill with 95 sp. 2, Peaksia stramínea
Astrella sp.

19099 Camped at Light No. Bore.

8.4.58 departed 19099
Genus nov 66 sp. 2, Lophantus quadrilobus,
19106 Stony hill with large boulders
Gomaia sp; Austrafrio guttulosa, Cuspilladia
on crest. Lightly timbered with Bloodwood
sp., Terpillaria pulchra, Peaksia stramínea,
" smooth white barked Euc (12ft. Some
Macrotona sp-2, Zebrapula sp. 1, Genus nov. 95 sp. 2,
Malvaceous shrub. Ground cover predominant
Happarana sp 1, Genus nov. 15 sp. 1, Aristida sp.,
by Enneapogon sp. with some Aristida
Gastrimargus muricatus.
Tussocks.

19113 No 48 Bore

19114 Heavy stony soil plain bearing
Austrafrio guttulosa, Cuspilladia sp.,
scattered Trees (golf ball) with Astrella
Peaksia sp; Genus nov. 66 sp. 2, Zebrapula
domenant. Some Flinders grass on areas of
sp., morabine sp.
heavier stone and Chloris & Stipa clumps
scattered throughout.

19116 = 19120 Turn off & back

19130 No 47 Bore

19137 Stony hill in range bearing
Zebrapula sp 1, Genus nov 66 sp. 2, Terpillaria
Enneapogon Flinders grass & Stipa sp
pulchra, Genus nov. 15 sp. 1, Peaksia sp.
Odd Euc (Bloodwood) scattered throughout

19150 Stop Heavy black soil plain. Astrebla Australis guttata sa, Acacia sp., Atriplex and Flinders grass co-dominant. Some stone ihalassina, Pyenostictus striatus, Genus nov. on areas of Flinders grass. Some scattered trees to 12 ft (golfball) 78 sp-1

19157 Stop Heavy black soil plain with basalt shale Ground covered with basalt stone fine grey gravel. Astrebla - Flinders grass co-dominant. Zeratula sp., Genus nov. 78 sp. 1, Genus nov. 15 sp. 1, Acacia sp., Genus nov. 66 sp. 2, Cupilladia sp.

19166 Wave Hill H.S

19172 Sheet rock a stoney crest of low hill Eucalyptus Leaved Euc sp (Hardwood) Bauhinia sp. quadriloba and some acacia shrubs. Cover predominantly Enneapogon with som Stipa. Numerous plants of a yellow-flowered legume present to 18".

19176 Wave Hill Police Stn

9.4.58

departed 19176

19184 Stop Spinifex on stoney area with some Euc sp a Acacia sp (broad grey phyllode) other patches of Flinders grass. Waramunga sp., Abutilon rufescens, Genus nov. 66 sp. 2, Acacia sp., Gonidea sp., Macrotona sp. 13, M. sp. 8, Sporobolus actinocladus

19205 Camped. at light 2.

10.4.58

Peaksia sp., Zebratula sp., Austrocis

19205 Stop Stony bluffs bearing several
guttulosa, Macrotona sp.12, Gastrocarpus
sps of Euc with odd Baueria sp. Stipa
musicus, Aretza sp.2, Pasaettia nigrescens,
of hill rough acacia formation bearing
Heteropteris obscurella, Caloptilla rubripes,
Stipa sp. Dactyloteinium radulans and
Pardillopsis sp., Genus nov. 66 sp.2
odd Triodia tussocks.

19210 Stop Euc savannah woodland
(Morobine sp., Genus nov. 95 sp.2, Peaksia sp.,
smooth purple-barked long leafed Euc; white-
Eremaea sp., Austrocis guttulosa, Genus nov.
barked smooth Euc. Euc tenuipes, and a
12 sp.3
rough grey barked Euc) all to 20ft. Under-
story of Acacias and ground cover of Triodia,
Enneapogon, Aristida and Stipa sp.

19235 Stop Triodia on purple-gravelly
Eremaea sp., Macrotona sp.3, M. sp.28, M. sp.
area no ground cover except for sparse
13, Genus nov. 58 sp.8
White-barked glaucous-leafed Euc present
throughout.
Cupillodia sp.2, Genus nov. 12 sp.3, sp.6, Genus nov. 77
19240 Stony ridge assoc with creek area
sp.1, Peaksia sp., Waramunga sp., Eremaea sp.,
Triodia dominant away from creek with
Macrotona sp.28, Genus nov. 66 sp., Austrocis
Euc sp (dichromophloia) Aristida present
guttulosa, Troggattina australis, Genus nov. 15
together with Eucalyptus tetrodonta Stipa sp
sp.1, Aretza sp.2, Terpillania pulchra, Macrotona
Bunch grass (Stipa sp.) odd Sida plant
sp.5, M. sp.13, Gastrocarpus musicus
present and Digitaria along creek banks.

19249 Savannah woodland with Euc
dominant (glaucous semi-sessile leaf) with

Acacias as undershrub. Several clumps of wild lemon present (calitala on this). Hibiscus, Stipa, Aristida, Themeda, Sida sp forming the ground cover. Soil sandy and slightly gravelly. Austrocis basalis, Warrammunga sp., morabine sp., Gonioea sp., Peakesia sp., Genus nov. 12 sp. 6, Azotota sp. 2,

19262 Heavy plain with scattered Eucs - broad leafed Eucs. Astrebla dominant some Eulalia fulva Wild lime present. Conditions dry. Austrocis guttulosa, Cryptandia sp. 2, Warrammunga sp.

19275 Stony open forest covered the with scattered pink-purple smooth barked Eucs. Several species of Acacia s. Conditions dry. Little or no other ground cover other than Triodia Gonioea sp., Macrotona sp. 8, Genus nov. 77 sp. 1, Macrotona sp. 28, Pycnostichs seriatus, Warrammunga sp.

19289 Euc sp (plane, broad leaf) Acacia sp (broad phyllode) Old clumps of Triodia but for the most part tall dense Aristida, Stipa sp with odd patches of Themida Austrocis guttulosa, Gonioea spp. (2), Desertaria longirugosa, Genus nov. 12 sp. 6, Macrotona sp. 8, Tolgadia infirma, Peakesia sp., Buforania sp. (?)

19299 Inverway H. S.

19300 S of Triodia covered stony hill with scattered white bark Eucs. Gone sparse and entirely of Triodia Eastrimargus misicus, Genus nov. 12 sp. 3, Buforania sp., Macrotona sp. 8, Microla sp. 12

19309 Open extensive black soil plain bearing Astrebla - Flinders grass as co-dominants. Conditions dry.
Genus nov. 78 sp. 1, Erthapta sp.

19326 Camped at light

11·4·58

19326 Stop. Shrubby plain loamy soil with few hillocks. Cucsp in woodland formation odd Cas sp and Acacia sp.
Austrocis gutturosa, Tonaea sp., Desertaria longirugosa, Adrippus sp., Macrotona sp. 8, Buforania sp.
Some grass. Stipa sp. Agrostis sp. all in separated tussocks.

19338 Mosaic gravel area of stone and gilgais. Lime area (gravel) bare gilgais with Cadia sp. Calotis sp., Genus nov. 66 sp., Chortoicetes terminifera, some Astrebla and Eragrostis sp. Partially quem on gilgais.
Gastrimargus musicus, Biolopus thalassinus, Peakesia sp., Austrocis gutturosa, Buforania sp., Calotis hirsuta

19348 Black soil plain bearing Flinders grass as dominant sp with Astrebla sp scattered throughout.
Chortoicetes terminifera, Erthapta sp.

19352 Nicholson H.S N.A.

19361 Red-brown fine gravel plain bearing Mitchell with scattered Cucsp (white barked) 12 sp. 3, Erthapta sp., Desertaria longirugosa, to 15 ft odd Acacia shrub.

grass. A glaucous, broad leaf, sessile
opposite leaved tree. grey barked boards
of branches. Odd wild Lemon clumps, and
native Kurrajong tree. Conditions
extremely dry.

20692 Tree scrub, reasonably
Genus nov. 12 sp. 6, Genus nov. 95 sp. 2,
open, with dense ground cover of Themida
and both Stipa a type of native millet
Conditions extremely dry.

Heteropternis obscurella, Pseudantelopus Regi,
20701 Wide shallow water course
Acrida conica, Gastrimargus musicus,
bearing a black box-like tree.
Tolgadia spp. (2), Locusta migratoria, Austrogris
Giant Stipa domenan with Eulalia
gaffulosa, Cupelladia sp., Roggattina australis
fulva in the main channels.

Genus nov. 62 sp. 1, Genus nov. 61 sp.,
20709 Scrubby area with trees sp.
Genus nov. 12 sp. 2, Peaksia spp. (2), Genus
Acacia sp. 6 20 ft. Some Ebenwoods.
nov. 15 spp. (3), Goniaea sp., Adappa erythropeza,
with 1 tree a other shrubs scattered
throughout. Soil sandy (white) and
Waramunga sp., Aretza sp., Genus nov. 58 sp. 1,
Genus nov. 66 sp., Macrotona sp. 12, morabina sp.,
pebbly (fine stone). Odd areas of
Macrocara conglobata
Trioda sp but mainly well

well spaced giant Stipa.

20717 Victoria River Depot (ruins)

20719 Timber Creek Police Stn.

20735 Turn off to Katherine

20737 Savannah woodland bearing several bloodwood species (Cupilladia sp.), cabbage gum (W.A type) and odd Hakea sp. Ground cover mainly giant Stipas. Some Aristida present conditions dry.

20746 Savannah woodland as for above but Acacia sp a nut wood (golf club) trees evident. Outcrops of limestone just breaking surface present, in scattered localities. Here Aristida + Astrebla? more prominent (Genus nov. 12 sp. 6, Cupilladia sp., Genus nov. 95 sp. 2, Peakesia sp., Tolgadia sp., Sowaka sp.)

20751 Skull Creek

20757 Savannah woodland bearing cabbage gum, bloodwoods and nut wood some Acacia sp. Ground cover predom. Enneapogon, some Stipa and bunch grass. (Zebratula sp., Cupilladia sp., Genus nov. 66 sp., Atpstrachis guttulosa, Peakesia sp.)

20778 ~~Victoria~~ Massive red bluff range
Macrozamia sp. 2, Goniaya sp.
rising steeply from the banks of the Victoria
River. Covered with Euc sp and a stiff
erect Triodia sp.

20780 Victoria River Xing.

20817 Gentle slope of low hill.
Cirpilladia sp., Pedicispa sp., Genus nov. 66 sp.,
mosaic pattern of granite sands and
Genus nov. 15 sp., Tolgadia sp., Genus nov. 12 sp. 6.
heavy self mulching clands. Sandy soil
bearing Chloris sp. & Aristida sp. Heavy
soil Flinders & Mitchell grass. Several
Euc. sp present. Cabbage gum; bloodwood
a narrow leafed Euc., grey barked to
tip of branches.

20831 Willeroo H.S.

20839 Slopes of stony hill covered
Adappa erythropteva, Genus nov. 15 sp.
in Spinifex. Narrow leaf Euc — grey
barked to tips present. Trees 8" to 16 ft

20847 Camped at night.

29.4.47

20847 Departed.

20854 Slope of stony hill. Several sp
Heteropteris sp. Euc's present
~~Est~~ to 25 ft. with native kurrajong - G

6 ft. Whole area thickly covered with Themida.

20861 Pebbly rise bearing dense Themida + Aristida sp. Cabbage gum and several other Euc sp. scattered throughout in a parkland like formation. Genus nov. 66 sp.

20870 Savannah woodland on sandy soil, bearing several Euc sp + Acacias. Ground cover composed of Aristida, Themida and other miscellaneous grasses + herbs. Genus nov. 15 sp.

20885.9 River Xing

20886 Limestone outcrops. Soil pebbly bearing miscellaneous Euc sp with Kapok bush. Some shrubby bushes. Ground cover Themida, giant Stipa sp. and other grasses. Some creepers present. Cupilladia sp., Xanterriaria sp., Zebratula sp., Tolgadia sp., Goniala sp., Peakesia sp., morabine sp., Stengcatantops nitripennis

20891 More densely wooded area on sandy soil with rocky jump-ups. Many Euc sp. ranging from 6 to 25 ft. Some shrubs. Kapok trees also in evidence. Stipa sp - shrub form also present. Aristida dominant with some stipa sp. A form of Triodia present on stony rises. Adreppus sp., Genus nov. 66 sp. 1, Macrotona sp. 2, Genus nov. 15 spp. (2), Xanterriaria chrysolor, Genus nov. 77 sp., Peakesia sp., Goniadoidia sp. 3, Adlappa erythroptera, Goniala sp., Arctya sp., Cupilladia sp.

21830 Spinifex sand plain bearing scalloped bloodwoods × Acacia sp. Latter to 8 ft. Some Hakea trees also present, conditions extremely dry.
Genus nov. 12 sp. 2, Macrotona sp. 8, Micrcola spp.

21846 Same as for above.

Macrotona sp. 8, M. sp. 11, morabine sp. 3, Genus nov. 58 sp. 7, Genus nov. 95 sp. 4, Warramunga sp.

Specimens Taken on road fleeing a bush fire.

21874 Open spinifex plain with scattered trees Some shrubby Acacia sp. Leguminous shrubs. Some Enneapogon along roadside Macrotona sp. 8, M. sp. 11, Micrela sp. 8, Warramunga sp., Genus nov. 95 sp. 4, sp. 1

21876 Frewena.

21911 Open savannah woodland bearing Eucalypts as dominant with much shrubby material consisting of Cassia sp, Acacia sp and clumps of wild lemon. Ground cover, Aristida Enneapogon sp with some Sida sp. morabine sp., Collitera sp. 1, Desertaria longiaugosa

21972 Barry's Caves

21975 Conglomerate rock outcrop bearing spinifex. Odd Euc sp ferruginea in gullies. Odd Acacia shrub to 5 ft Macrotona sp. 7

21997 Soudan

22071 Camped.

3.5.58

22071 Departed. Treeless plain, self-mulching soil in a mosaic of

Austracris guttulosa, Yrrhapta sp., Y. cervina, Lagoonia sp., Macrozlota spp. (j.)
of pebbly compact areas and heavy gilgai
areas very shallow. Vegetation green.
Flinders grass to 2" dominant on pebbly
more compact areas. Eulalia fulva,
Astrebla - Flinders in the gilgais. Some
Stipa + Aristida on better watered areas
of compact soils. Winged nymphs
2-3rd instar numerous 2-3/sq yd.

22078 Canoowrah.

22118 Stony spinifex covered hill
Macrotona sp. 5, M. sp. 8, Goniaea sp.,
with several sp. of Orthoptera (including
Peakesia sp., Macrozlota sp. (j.), Genus nov. 95
bathedge) and some shrubby material.
sp. 2, morabine sp., Macrotona sp. 6
A leguminous shrub to 18" but flat topped
= 3ft in width present.

22164 Gidgea scrub area on pebbly
silty soil. Gilgais present bearing
Astrebla sp. with clumps of Triodia
on the more compact soils and open
areas in the Gidgea
